9                   WESTERN DISTRICT OF WASHINGTON  
10                  AT SEATTLE

11                  CHRIS CARLSON,

12                  v.  
13                  Plaintiff,

14                  HOME DEPOT USA INC,

15  
16                  Defendant.

17                  CASE NO. C20-1150 MJP

18                  MINUTE ORDER

19                  The following minute order is made by the direction of the court, the Honorable Marsha  
20                  J. Pechman, United States District Judge:

21                  The Court has reviewed the Parties' Stipulated Protective Order. (Dkt. No. 11.) Although  
22                  the Parties have entitled the document a "Model Stipulated Protective Order," it does not track  
23                  the District's Model Protective Order. In Section 4.3 of the Stipulation, the Parties propose a  
24                  system of filing materials under seal which deviates from the District's Model Protective Order  
                and appears not to allow a party to file and the Court to review confidential materials filed in  
                support of motions and oppositions. This is not appropriate. The Court DENIES the Stipulated

1 Protective Order and instructs the Parties to review the District's Model Protective Order and  
2 conform any revised stipulated protective order to the Model Protective Order's sealing process.

3 The clerk is ordered to provide copies of this order to all counsel.

4 Filed November 17, 2020.
